INTERNSHIP

Software Development Intern - Link **Jun' 2026 – Aug' 2026**

STIC Soft E Solutions

- Overhauled and improvised the architecture of the Resource Management Tool, adding scalable web features that improved system performance by **30%**.
- Built frontend features using SharePoint Framework (SPFx), TypeScript and React.js for a Microsoft 365 environment.
- Collaborated with cross-functional teams to translate business requirements into functional, maintainable components.

Full Stack Developer Intern | Link **Sep' 2025 – Nov' 2025**

Vanillakart

- Developed a responsive, accessible NGO platform using the MERN stack, increasing user engagement by **50%** and strengthening volunteer and donor outreach.
- Containerized the application with Docker and deployed it on secure hosting with Git-based version control, sustaining **50+** concurrent users during traffic spikes.
- Optimized the platform for mobile devices and varying network conditions, improving accessibility and page load time.

PROJECTS

Intelligent Retail Analytics System | *Python, YOLOv8, OpenCV, spaCy, MongoDB, Docker, Streamlit* **Mar' 2026 – Apr' 2026**

- Architected a real-time computer vision pipeline using YOLOv8, OpenCV and a custom SORT tracker to detect and track customers across retail zones, generating heatmaps, queue alerts and shelf-stock monitoring with automated restock notifications stored in MongoDB.
- Engineered a 0–100 customer engagement score from dwell time, movement speed and path analysis, and built an NLP query engine (spaCy + regex) supporting 8 intent types for natural-language analytics.
- Containerized the system with Docker Compose and developed a 7-page Streamlit dashboard with live video feeds, interactive Plotly heatmaps and one-click PDF/Excel reporting.
- GitHub Repository Link: **https://github.com/SaiYoshitha3125/Intelligent-Retail-Analytics-System**

AgriSecure | *MERN Stack, REST APIs, Payment Gateway* **Aug' 2025 – Sep' 2025**

- Developed a full-stack contract farming platform using the MERN stack, connecting farmers, buyers and administrators through structured digital agreements.
- Implemented user authentication, role-based access and contract handling with a modular backend, and integrated a payment gateway for secure digital transactions.
- Designed responsive, cross-device interfaces with React.js and Tailwind CSS using reusable components and streamlined workflows.
- GitHub Repository Link: **https://github.com/SaiYoshitha3125/AgriSecure** | Live: **agrisecure-pxmw.vercel.app**

CERTIFICATIONS

- **Human Computer Interaction** **May' 2026**
  NPTEL | Link
- **ChatGPT-4 & Prompt Engineering** **Aug' 2025**
  Infosys Springboard | Link
- **Data Structures & Algorithms with C++** **Jul' 2025**
  Cipher Schools | Link
- **Introduction to Hardware and Operating Systems** **Sep' 2024**
  IBM (Coursera) | Link
- **The Bits and Bytes of Computer Networking** **Sep' 2024**
  Google (Coursera) | Link

TECHNICAL SKILLS

Languages: C, C++, Python, Java, JavaScript, TypeScript, SQL
Frameworks: React.js, Node.js, Express.js, SharePoint Framework, HTML, Tailwind CSS
AI/ML: NumPy, Pandas, Scikit-learn**,** YOLOv8, OpenCV, spaCy, Streamlit
Databases: MongoDB, MySQL, NoSQL
Technologies: Docker, Git, GitHub, Postman, Figma
Skills: Data Structures and Algorithms, Object-Oriented Programming, Problem-Solving

EDUCATION

Lovely Professional University **Phagwara, Punjab**
Computer Science and Engineering — CGPA: 7.21 *2023 – 2027*

International Junior College **Hyderabad, Telangana**
12th with PCM — Percentage: 86.5 *2022 – 2023*

Army Public School Golconda **Hyderabad, Telangana**
10th — Percentage: 85.5 *2020 – 2021*
